Art Unit: 2154

Art Rejections:

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1, 3-8, 10-14 and 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vilhuber, U.S. pat. no. 6,470,453.

Per claims 1 and 6-7, Vilhuber discloses a method for establishing concurrent network connections comprising:

a) receiving a resource request at a client computer (see col 9, lines 53-59);

Art Unit: 2154

b) searching for, at the network access server accessible from the client computer, active credentials, e.g., ID, password, etc., (see col 10, lines 19-34);

c) determining if an applicable active credential is found wherein the active credential corresponds to the resource request;

d) retrieving the active credential and accessing the requested resource using the retrieved active credential (see col 10, lines 35-49);

e) if an active credential is not found, defining by the client computer a new active credential, storing the new active credential at the access server, and accessing the requested resource using the new active credential (see col 10, lines 50-65 and col 8, lines 26-46).

Vilhuber does not explicitly teach storing client active credential in a table at the access server. An official notice is taken that the use of a multi-field table or a directory database for storing client's login information, e.g., userID, password, etc., at the access server is well known in the art.

It would have been obvious to one of ordinary skill in the art at the time of the invention to utilize any conventional storage and/or database structure to store and maintain active client credentials and communication sessions at the access

server because it would have enabled implementing Vilhuber's multiple concurrent connections (see col 10, lines 19-34).

Per claims 3-5, Vilhuber also teaches authenticating users using dynamic data (e.g., token card) as opposed to static data (e.g., pre-assigned password) (see col 11, lines 6-25).

Claims 8, 10-14 and 16-20 are similar in scope as that of claims 1, and 3-7.

Allowable Subject Matter:

4. Claim 21 is allowed over prior art of record.

Response to Amendment:

5. Applicant's arguments filed on 5/11/05 are moot in view of new grounds of rejection set forth above.

Conclusion:

6. Applicant's amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED

Art Unit: 2154

STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
